Objective	Action Plan	Who
	<ul style="list-style-type: none"> • Transition Out of JaxHATS <ul style="list-style-type: none"> ▪ Looking to create an effective plan or model for transitioning JaxHATS patients that have reached 26 years of age. The goal is to create a smooth transition without causing interruption of healthcare or other services. ▪ Identify with adult providers that will agree to continue continuity of care for our JaxHATS patients that will leave our program. ▪ Create a service database/directory that we could reference to for future referrals for: adult internist/primary care providers and specialist. ▪ Coalition members could possibly work together to create, update and revise this service database. Or recommend a person(s) who could take this project. ▪ It was suggested maybe creating a YASHN Needs Assessment to address what is needed or available to these young adults such as: dental, mental health, social services, transportation, educational needs. How can we find these services? • Healthcare and Educational Transition Resources/Training for YASHN <ul style="list-style-type: none"> ▪ Janet Hess suggested trainings of the healthcare transition model for teachers. How to incorporate the healthcare transition into student IEP's? ▪ Karen Prewitt expressed that there should be a training for parents on how to prepare and deal with YASHN. 	<p>JaxHATS</p> <p>All Members</p>
