

**FloridaHATS Coalition Leadership Teleconference/Webinar
Meeting Minutes from 6/22/16, 11 AM ET**

A meeting invitation was sent electronically to all CMS Medical and Nursing Directors, coalition coordinators, and other interested stakeholders. Approximately 35 attendees participated.

Dr. Janet Hess, FloridaHATS Project Director, presented “Health Care Transition Resources for Florida Secondary Schools” (see attached PPT). Following the presentation, these items were discussed:

- 1) There is a need for web-based family training to supplement training for health care practitioners and educators.
- 2) There are new condition-specific transition tools for adult specialists that are based on the Six Core Elements and were developed by the American College of Physicians. The tools are posted on the FloridaHATS web site at www.floridahats.org/for-health-care-practitioners.
- 3) There was a request for PDF copies of the HCT Training for Health Care Professionals to be posted along with the PPT modules on the DOH’s TRAIN web site.
